

Saket Kumar

Greater Noida, Uttar Pradesh

+91-7281024445 — saket123yadav@gmail.com — LinkedIn — GitHub

Summary

Computer Science Engineering student passionate about software development, with hands-on experience in building ML-powered applications, multi-agent RAG systems, and full-stack web platforms. Proficient in Python, React.js, Node.js, FastAPI, Docker, and modern AI technologies.

Education

Bachelor of Technology in Computer Science and Engineering	Oct 2023 – Present
G L Bajaj Institute of Technology & Management, Greater Noida	CGPA: 8.54

Senior Secondary (XII)	2022
Holy Cross School, Madhepura, India	90.4%

Higher Secondary (X)	2020
Holy Cross School, Madhepura, India	94%

Technical Skills

Languages: C++, Python

Web Development: HTML, CSS, JavaScript, React.js, Node.js, Express.js, Fast API

Machine Learning: Scikit-learn, XGBoost, Feature Engineering, Data Preprocessing, Model Training, Model Evaluation, Classification, Regression

Databases: MongoDB, MySQL

Tools: Git, GitHub, VS Code, Docker

Core Concepts: Data Structures and Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Projects

GigShield — Python, FastAPI, XGBoost, Docker

- Trained and deployed XGBoost models for insurance risk assessment and fraud detection.
- Developed FastAPI-based APIs for risk scoring, premium prediction, and claim evaluation.
- Containerized the ML service using Docker for scalable deployment.

Chat with PDF — Python, FastAPI, React, LangChain, FAISS, Docker

- Built a multi-agent RAG system with query rewriting, retrieval, reranking, and answer generation agents.
- Implemented semantic search using FAISS and transformer embeddings for contextual document retrieval.
- Developed a React frontend and FastAPI backend for conversational PDF interaction.

AI Job Tracker — React.js, Node.js, MongoDB, Python

- Built a full-stack platform to track job applications, interviews, and application status.
- Integrated AI-powered resume analysis to evaluate resumes and generate improvement suggestions.
- Developed REST APIs and MongoDB data models for efficient job and user management.

Achievements

- **Oracle Cloud Infrastructure 2025 Certified Generative AI Professional – Oracle**
- Solved **500+** Data Structures and Algorithms problems on LeetCode and other coding platforms.
- Built and deployed AI-powered applications using FastAPI, Docker, LangChain, and Machine Learning.
